HOW-TO

DIY GUIDE #0072

KEEP MOTORBIKE PRIMED FOR BETTER PERFORMANCE

GET THE TIPS

MOTORCYCLE

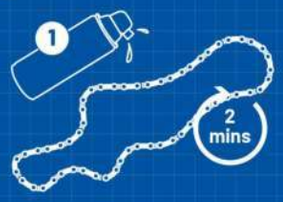

WHAT YOU NEED

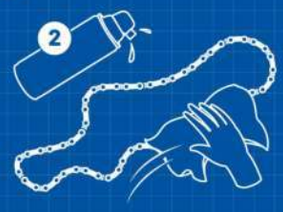

INSTRUCTIONS

1.

Degrease the chain, spray a generous amount of WD-40 Specialist® Machine & Engine Degreaser, let is sit for 2-3 mins and wipe away.

2.

Grab the WD-40 Specialist® Chain Lube and spray onto the inner side of the chain, and manually spin the rear tyre as you spray. Wipe access away with clean cloth .

3.

Remove gunk and grimes on the brake calipers, without dismantling using the WD-40 Specialist® Brake & Parts Cleaner.

4.

For a good upkeep of the motorbike exterior, spray on WD-40® Smart Straw® to wipe away grease and protect from rust.

Tip! Keep WD-40® Smart Straw® close to remove moisture from Spark Plug especially during raining seasons and flood. It helps to repel water, prevent corrosion and rusting.
